Whilst it is not compulsory that the following information be given, sport can and does play a major role in promoting inclusion of all groups in society. Inequalities have traditionally existed within sport, particularly in relation to gender, race and disability. We are committed to promoting and developing sports equity, which is about fairness in sport, equality of access, recognising inequalities and taking steps to address them. By monitoring the profile of people in sports clubs we can identify any issues relating to under-representation of different groups and can develop strategies to ensure all people have an opportunity in the future development and progress in sport.
